# CATEGORIZING WORDS

What is Categorizing?

To categorize means to put words into groups that belong together. A category is a **group**.

Examples:

These belong together because they are all **fruits**. Other fruits would go in the same category.
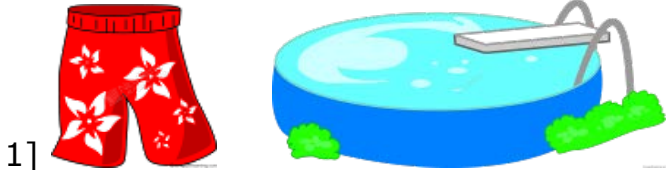

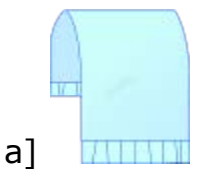

These belong together because they are **animals**. Other animals would go in the same category.

Try this!

1]

What belongs with this group?

a]

b]

c]

2]

What belongs with this group?

a]
