

COUNTING TO 999

When you count, you start with the number 1 and stop counting after you count the last object you happen to be counting.

For example:

Count the beach balls.

You would start counting at 1 and stop at 10 because there are 10 beach balls.

As a second example, you could count from 1 all the way to 999....and maybe even higher!

Let's practice counting 1-100:

1, 2, 3, 4, 5, 6, 7, 8, 9, 10,
11, 12, 13, 14, 15, 16, 17, 18, 19, 20,
21, 22, 23, 24, 25, 26, 27, 28, 29, 30,
31, 32, 33, 34, 35, 36, 37, 38, 39, 40,
51, 52, 53, 54, 55, 56, 57, 58, 59, 60,
61, 62, 63, 64, 65, 66, 67, 68, 69, 70,
71, 72, 73, 74, 75, 76, 77, 78, 79, 80,
81, 82, 83, 84, 85, 86, 87, 88, 89, 90,
91, 92, 93, 94, 95, 96, 97, 98, 99, 100

Now...can you continue counting all the way to 999?
