

SEQUENCING

What is Sequence?

sequence = order

When you count, numbers go in a specific order.

When you count to 10, you count:

1, 2, 3, 4, 5, 6, 7, 8, 9, 10 → this is the **CORRECT** order/sequence

You do **NOT** count:

5, 3, 6, 8, 7, 1, 10, 2, 4, 9 → this is the incorrect order/sequence

Let's practice

____, 5, 6

What number

18, _____, 20

What number comes between 18 and 20?

Answer: 19

32, 33, _____

What number comes after 33?

Answer: 34
