PERIMETER

What Is Perimeter?

- The perimeter is the measurement of the distance around the **outside** of a shape or object.
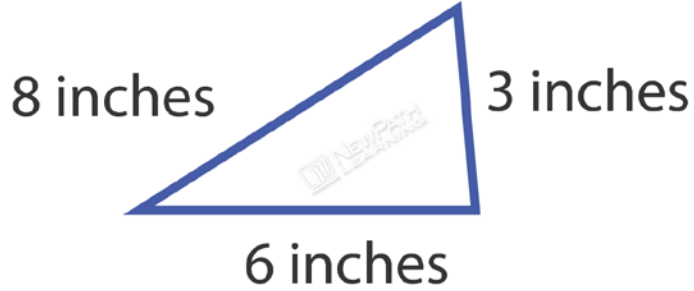

How to find the perimeter:

- To find the perimeter of a shape or object, simply add the outside dimensions together.
  For example:

12 inches

12 in

12 inches

Each side of this square is 12 inches.
To find the perimeter, add 12 + 12 + 12 + 12.
The perimeter of this square is 48 inches.

Another example:

To find the perimeter of this triangle, add the dimensions of the three sides together. The perimeter of this triangle is 17 feet.
