

PIONEER LIFE

What was Pioneer Life Like in the 1700's and the 1800's?

Pioneers depended upon the environment for their food, clothing, and shelter.

Food

One source of food for the pioneers was fish. Pioneer farmers grew their own food. Roots and berries were gathered from the forest. Deer, bison, squirrels, and birds were hunted for food. The Native Americans taught the pioneers how to make maple syrup from maple sap to sweeten their food. Rivers, lakes, and streams provided water for drinking.

Clothing

A plant called flax is taken from sheep and used for clothing.

Pioneers spun wool from sheep as another source of clothing.

Shelter

Pioneers on the prairies built houses of earth known as sod houses. Pioneers in forested areas built houses called log cabins. Pioneers in hilly areas cut homes into the sides of hills. These homes were called dugouts.
